Reminder: Institutional Research Administration Requirements

Information and a guidance document on the required Lawson Approval is available at <https://intra.lawsonresearch.ca/preparing-research/regulations-procedures/research-approvals> or by contacting researchapprovals@sjhc.london.on.ca (Lawson) or researchapprovals@lhsc.on.ca (LHSCRI).

Please see the Documented Institutional Ethics Requirements (DIER) form for Lawson (SJHC) and LHSCRI (LHSC) site-specific requirements to be incorporated into your Centre Initial Application. Effective September 7, 2017 all Lawson research should first be registered with Lawson using the ReDA tool before submitting for Research Ethics Board (REB) approval. Please go to <https://www.westernLawsonResearch.ca> for the portal to ReDA. Information in ReDA will support all elements of the Lawson Approval and alerts Lawson to delegate ethical review and oversight to an REB of Record. Documentation on ReDA is available at <https://intra.lawsonresearch.ca/> and support is available through contacting researchapprovals@sjhc.london.on.ca or researchapprovals@lhsc.on.ca.

The CTO Streamlined System provides a streamlined approach to research ethics review. Each participating site must ensure that all necessary institutional authorizations and contracts/agreements are in place prior to beginning the research.

This access is automatically granted when the Centre Initial Application is created. **When Lawson is the Provincial Applicant site the research team should immediately create the CIA for the London site (right after creating the PIA).** This will ensure that access is automatically granted as required above, otherwise the research team will need to manually add these roles to the PIA prior to submission.
